### **Armed Movement in Structures (AMIS)**

The ShivWorks Armed Movement in Structures (AMIS) course is a twenty hour block of instruction focusing on negotiating movement problems within structures with limited or no resources. Realizing that moving through a structure that contains armed hostiles, perhaps by one's self, is probably the most dangerous task one can undertake, the best options for winning a confrontation are presented with the qualification that there is no safe way to do this.

Topics covered include:

#### *Day One (12 hours):*

- Viewing the environment in terms of the unseen
- Vertical, Horizontal, and Diagonal planes of visual obscurement
- Distance variables and the visual apex
- Threshold evaluation
- Dynamic and Deliberate movement
- Room Entry factors (known versus unknown)
- Minimizing multiple exposure
- Modifying the fighting platform to conform to cover and concealment
- Re-setting/Disrupting the adversary's OODA loop
- Chalk board exercises
- Dry-runs
- FoF evolutions
- Low-light module

#### *Day Two (8 hours)*

- Practical Exercises for egress, search, and third-party rescue

#### Equipment Required

Airsoft pistol, airsoft ammunition, wrap around eye/face protection suitable for Airsoft and man-marking cartridges, holster, groin protection, flashlight. Course cost for 20 hours of instruction is \$400.00
