

SHIVWORKS VIDEO PRODUCT DESCRIPTIONS

Reverse Edge Methods Volume I:

This video is the first of a two part series and focuses on the application and methodology of utilizing the reverse edge (reverse grip-edge in, forward grip-edge up) of the knife in combat. Emphasis is placed on correct structure and body mechanics. This is the “how” volume.

Reverse Edge Methods Volume II:

The second video of the R.E.M. series focuses on reverse edge methods in the context of criminal assault with particular emphasis placed on disproportionate armament and unequal assault initiative. This is the “why” volume.

Fighting Handgun Volume I:

The first in the firearms’ series, this volume focuses on building a handgun fighting system from the ground up. The emphasis in this instructional video is on getting the pistol into the fight and becoming functional at zero to five feet.

Practical Unarmed Combat Volume I:

This first volume focuses on the context of criminal assault, challenging the potential assailant, immediate action for spontaneous assault and basic striking tools.
